SERBIAN MICROBIOLOGISTS CONGRESS

MICROMED 2017

with international participation

| Belgrade, 11-13 May 2017 |

**SERBIAN SOCIETY
FOR MEDICAL MICROBIOLOGY**

**SERBIAN SOCIETY
FOR MICROBIOLOGY**

Belgrade, 23 February 2017

Dear Colleagues,

On behalf of the Scientific and Organizing Committee, we would like to send you Congress Newsletter no. 2 and to cordially invite you to the upcoming

XI CONGRESS OF SERBIAN MICROBIOLOGISTS - MICROMED 2017

with international participation

The Congress, organized by the **Serbian Society for Medical Microbiology** and the **Serbian Society for Microbiology**, will be held in **Belgrade** from **11-13 May, 2017** at the **Hotel M** in **Belgrade**. Beside colleagues from Serbia, experts from all the countries from the Balkan region and South East Europe will participate in the Congress.

After ten years of successfully organized national congresses, our main objective is regional promotion of Congress and MICROMED brand.

Beside European lecturers, **professional leaders** from Serbia and the region will present **plenary sessions and roundtable discussions** covering **important topics for Serbia and Balkan region**.

We are actively promoting the Congress and expecting over **400 delegates** from **Serbia, Republic of Srpska, Federation of Bosnia and Herzegovina, Croatia, Slovenia, Republic of Macedonia, Montenegro, Hungary, Romania, Bulgaria, Albania and Greece**.

Attractive topics and integrated problem approach should bring together wide range of professionals: **Medical, General and Industrial microbiologists, Epidemiologists, Veterinary microbiologists, Food microbiologists, Phytopathologists, Geneticists and General practitioners**.

Some of the Congress **topics** include: **Infectious disease epidemiology, Oncogenic viruses, Invasive Bacterial Diseases, Intrahospital infections, Antimicrobial resistance, Modern methods of microbial diagnostic, Viral Myocarditis, Mycology infections, Parasitic Diseases, Proptosis diseases of humans and animals, Infectious disease treatment – new possibilities, Microbial ecology, Food microbiology, Veterinary microbiology, Biotechnology, Microbial genetics, Water microbiology, Industrial microbiology, Phytopathology and Sanitation and food industry**.
